ITALIAN TRADE AGENCY

ICE - Agenzia per la promozione all'estero e l'internazionalizzazione delle imprese italiane

ITA – Italian Trade Agency is the Governmental agency that supports the business development of our companies abroad and promotes the attraction of foreign investment in Italy.

With a motivated and modern organization and a widespread network of overseas offices, ITA provides information, assistance, consulting, promotion and training to Italian small and medium-sized businesses. Using the most modern multi-channel promotion and communication tools, it acts to assert the excellence of Made in Italy in the world.

Ministero degli Affari Esteri
e della Cooperazione Internazionale

MAECI - Ministero degli Affari Esteri e della Cooperazione Internazionale

MAECI is the Government body that implements foreign policy.

With the 2019 reform, MAECI has acquired competence over foreign trade and the internationalization of businesses.

One of MAECI priorities is providing support to Italian businesses to grow in foreign markets along with the traditional diplomatic activities aimed at protecting Italian national interests globally.

MAECI carries out these activities thanks to a network of 300 offices, including Embassies, Consulates and Cultural Institutes, that work every day to promote Italy in an economically, culturally and scientifically integrated way.

The **Consorzio Promozione Filati - CPF (Yarns Promotion Consortium)** is a group of producers of knitwear and hand knitting yarns established 30 years ago among the most dynamic, creative, and export oriented Italian companies.

Today, the companies are **38 representing all the qualities of the sector: carded, classic, worsted, for circular knitting, for weaving and hand knitting yarn.**

The common objectives of the companies are the following:

- the research and innovation content, consequence of constant attention to both fashion trends, proposed in various forms seasonally and to the optimisation of the production processes, result of the collaboration with research structures having vast experience in the textile sector
- the commitment towards environmental, social, and organisational sustainability, certified by having adhered to the commitment of 4Sustainability®
- the active support to young designers and their creativity supplied through the collaboration with many International fashion schools, which in 2010 gave birth to the contest "Feel the Yarn" (feeltheyarn.it), in collaboration with Pitti Immagine Filati.

Thanks to this expertise CPF started many collective promotional initiatives over the years, both in fairs, such as Pitti Filati in Florence, Spinexpo in Shanghai, and through specifically events, like the **workshops in Japan, South Korea, China, Europe, Usa and in Turkey.**

Over the years, the nature of the consortium has evolved to make it **the point of reference for the entire Italian knitwear chain**, as regards active internationalization.

In addition, CPF has created **the trend magazine "Feel the Yarn"** dedicated to yarns that is published by Nuova Libra Editrice and distributed all over the world.

We invite you to visit the feeltheyarn.it platform to stay informed about our activities, including the organization of our tradeshows, the latest edition of "Feel the Contest", our seasonal Trendbook, and more. Subscribe to our newsletter to receive regular updates directly in your inbox!
